Dear Anna:

Let my fears of a

new and cataclysmic World War may seem ill-founded and out of perspective with respect to a Georgian International

I beg you to read the very latest from that undoubtedly well-informed and realistic statesman Lloyd George. You

will not, I fear, get access to it in the N.Y. papers. When, if ever, will it be more appropriate for those who speak for Jimmy George to point the only way to World Peace - whether the world will listen or not,

(over)

and "if it be not too late"

as President Butler put it.

Yours affectionately
