Miss Margaret Bateman
Director of The Henry George School
30 East 29th Street
New York City

Dear Miss Bateman,

Enclosed herewith is a copy of the scenario in final form. I believe it has good student getting possibilities.

Thousands of good prospects have never heard a reliable report of what Henry George was driving at. Other thousands have prejudice thresholds that must be passed before they can be interested. Many can be induced to look at a picture who would refuse us an audience of any other kind. A picture is likely to get us to first base with many people. If it does, we will get students.

Please read and consider the scenario and confer with Jean. I am sending copies to the trustees also and hope that you and they may wish to help produce it under school auspices.

It can probably be produced inexpensively, using amateur talent, phonograph recordings, contemporary industrial scenes, etc.

Sincerely yours,

Don Marcellus

Dear Don Marcellus:

Thank you very much for sending me the very impressive scenario entitled Democracy--2000 A.D.

I am on the verge of leaving for a short vacation in Canada, but I wanted to acknowledge receipt of this and tell you that I shall be interested to know the reaction of the trustees. I am sure you have put in a great deal of time and effort on this and hope that it may be possible to make use of it. As you say, many people will look at a picture who would not otherwise give us an audience.

With kind regards to you and Mrs. Marcellus and also to your mother, I am

Yours sincerely,

Margaret W. Bateman
Director
