Dear Bob Conroy,

Thank you for your air letter dated Aug 5th, received this morning, and for the kind remarks about the account of my activities and those of UK colleagues — I wasn't sure whether the style or the content would be appropriate.

Yes, you were sent a photo-copy, the reason being that my typist makes alterations and emendations on the top copy, and the correcting fluid usually leaves bumps on the paper which do not show up if the sheet is photo-copied.

The only other report I have sent recently to a Georgist journal was the enclosed one to "Land & Liberty". Some while ago — I think about a year ago, possibly more —

I sent Land Liberty "a copy of a report on
a Labour Party land conference in London
which several of us Georgists attended.
I think David Redfeam also sent a
report to Land Liberty "on our visit to the
Foreign Office — but perhaps that went
to a Quaker journal.

If you aren't receiving much about
UK Georgist activities, I'll have to
pull up my socks, and urge David
Redfeam and Henry to do likewise.
The three of us do a fair amount of
writing, and it seems about time
we let you know about it.
Good luck and very best wishes!

Sincerely

John Hatherley
