Gentlemen:

Was very much stimulated by the discussion  
on your program "Town Talks" yesterday at 12:15 P.M.  
on which the Director of the Henry George School was  
the guest speaker.

Was beginning to think that there were no people  
interested in Freedom or free competitive enterprise only  
in what they can get from the government. Let's have more  
of this type discussion. Our future depends on it! Your  
station is to be complimented for the diversity of programs  
that elevate the cultural level in communications. Can't  
say the same for other radio or T.V. stations.

Sincerely yours,

(Miss) Lucia M. Cipolloni
