My dear Mrs. Geiger:

I was delighted to read in your letter of August 27th that you follow the affairs of the School through the medium of the Freeman and that you are keeping in touch with the progress made.

I assure you the Trustees individually, as well as collectively, are taking their responsibility seriously and that they are very anxious to fill the present vacancy in the Board by naming someone who will be a real credit to the School and whose services will advance the great work that was so ably started by Oscar Geiger.

For this reason your suggestion is most welcome and I assure you that the name of Charles Joseph Smith will receive careful consideration. Thanking you for your interest in the matter, I am

Very sincerely yours,
