tto Grimm, Co-Op Director, member of the orld Order Society, a long time member and ontributor is the new Treasurer.

red attended UCLA and UC Berkeley. A Berley resident, he is a libertarian, an uthor, and former candidate for local ofice.

o manage the year's program. The Budget OMMITTEE includes Otto Grimm, Clarence urger and Mary Francis Smith. The Perornel Committee includes Roger Somers and lay Berling. The Program Committee includes Wendell Fitzgerald, Clay Berling, ave Damery, and Dale Buscher. Pat Hollagsworth is coordinating the Fall Picnic.

DAMITTEES ARE OPEN TO THE MEMBERSHIP OF HE SCHOOL. THE POST OF VICE PRESIDENT IS DW OPEN FOR NOMINATION.

ICHLANDER LEADER SOMES TO SAN FRANCISCO

TLES HORTON, founder of the Highlander of K. School in Tennessee will meet with he members of the School November 8th. The opic: 'PROGRESS AND POVERTY IN APPALACHIA'

SPECIAL CLASSES PLANNED FOR FALL TERM

Bay Area Program for Humanists

A series of targeted classes in PROGRESS AND POVERTY will highlight the fall term of basic classes in economics.

Veteran teachers, Clay Berling, Robert O'Donanell and Alanna Hartzok will lead the classes in Alameda, Marin and San Francisco.

The new targeted classes is an experimental program to focus the work of Henry George for particular groups. The first is for members of World Federalists, Association of Humanistic Pschologists, environmentalists and others.

Independent study programs in the Bay Area with tutors and occasional group sessions was pioneered by the school last year with some good results according to Education Director, Alanna Hartzok. "We are continuing the program this year," she says.

'We urge our members to tell their friends about the classes or to ask for brochures to be sent to them.'

LARGE LOCAL DELEGATION ATTENDS

PRESIDENT FRED FOLDVARY led the Northern California delegation to the annual membership meeting of the Council of Georgist organizations which was held in Goleta, Santa Barbara in Southern California, July 12-17.

Bob Scrofani and Alanna Hartzok led a number of the sessions during the meeting. The SF 'Outreach Program' was described and new national series of outreach responsibilities were established by the directors. San Francisco is asked to coordinate Adult Programs and outreach to Peace, Environment and World Order groups.

Fred, Bob, Alanna, Clay and Mrs. Ruth Berling, Otto Grim, Ben Malia, Evelyn Friend Clarence Burger attended the meeting.

The California Caucus met to discuss how to handle new LVT legislation proposed. Otto and the Berlings participated in a new Methodist Caucus which resulted from a banquet keynote call by columnist Mike McManus to reach out to churches.

NY TIMES SAYS LVT A USEFUL TOOL TO PRODUCE JOBS AND HOUSING-

In two recent editorials, the NY Times has urged public officials to consider the use of LVT to solve urban problems.

Washington

President Reagan, saying that he was "perplexed" to hear of soup kitchens and food lines around the nation, established a group of experts yesterday to examine the reports of increasing hunger and to propose remedies if they are needed.

MARTIN LUTHER KING:

"So LONG AS WE HAVE AN ECONOMIC SYSTEM THAT IS DESIGNED TO TAKE CARE OF THE SMALL GROUP WHO CONTROL THE WEALTH, THERE WILL BE HUNGER, JOBLESSNESS AND DESPAIR, WE MUST TAKE A NEW LOOK AT THE PROFIT SYSTEM, FOR THERE IS SOMETHING BASICALLY WRONG,

HENRY GEORGE

"Like those who oppose us, or at least fail to go with us from sheer inability to see how the taxation of land values (or land rent) can abolish poverty, their mental gaze seems to be concentrated on what we propose to do, ignoring what we propose to do away with. The great benefit the appropriation of ground rent, or land values to public use would not be in the revenue that it would give, so much as in the abolition of restrictions upon the free play of productive forces that it would wrolve or permit. It is not by the mere levying of a tax that we propose to abolish poverty; it is by securing the blessings of liberty."

FERDERICO GARCIA LORCA:

"The day that hunger is eradicated from the earth, there will be the greatest Spiritual explosion the world has ever known. Humanity cannot imagine the joy that will burst into the world on the day of that great

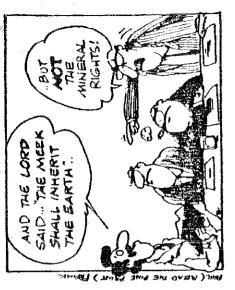

V. Tarzie Vittachi

"There is now a simple, self evident truth - only the poor are hungry. Have you ever seen anyone with money who is hungary? It is so simple a fact that it is generally forgotten. Only the poor are hungry. Poverty then, is the cause and it is poverty which must be attacked.

ANN CRITTENDEN (N.Y. Times)

"Even at the height of the food crisis in 1974, the world was producing two pounds of grain a day - more than 5,000 calories - for every man, woman and child on earth. The cause of hunger, it is agreed, is poverty and poor income distribution...the higher the food prices, the greater the incidence of hunger, for in developing countries the poorest people already sp end some 60 to 80% of their income on food."

APPALACHIAN STORY IN E. KENTUCKY REVEALED ON CBS' ''OUR TIMES"

A revealing one half hour presentation of life in Eastern Kentucky where a handful of coal companies own the land and control the lives of the people was shown in prime time nationally on August 8th by CBS news team. It was presented on the Bill Moyers "Our Times" Journal.

The program focused on a straight talking local journalist who believes that the companies should pay their fair share for government services. In a milieu where most people are dependent on mineral companies for work, this courageous journalists joined by members of the Appalachian Alliance is work ing for an "unmined mineral tax" law. The local school was particularly pleased and alerted its members to the program. The school has supported the efforts of the people of Appalachia and has worked by mail and phone to focus CBS' attention on the area. (see 'Landlink page 7".

Stan Rubenstein and Bob Scrofani are now developing a 16 page tabloid for teachers on conditions in Appalachia. It will be distributed at National Council of Social Studies teachers meeting in November in San Francisco.

OUTREACH TO RELIGION

GEORGIST MAKE ECUMENICAL MOVES

Georgists are reaching out to religious groups all over America.

A resolution was presented to local Unitarian Churches and then taken to the national meetings of Unitarian. At the Goleta Conference, Georgists who are Methodists met for an initial paanning session for outreach to their church societies

In North Carolina, a major outreach program is spearheaded by the New York School. A land stewardship Council formed by the hierarchy of the Churches and synagouges there is receiving support from the New York school. Georgist volunteer Jerry Schliecher made the initial contacts. The use of some of George's ideas to conserve the environment will be shared in a new church bokalet.

The San Francisco school has some filmstrips and slide shows prepared by ecumencial organizations articulating the need for a new land ethic. They are available for loan.

By Mervin D. Field

Five years after passage of Proposition 13, Californians take a mixed view of the effects the 1978 property tax cut amendment has had on them, according to a California Poll.

Forty-three percent of the adults polled say Proposition 13 left them neither better off nor worse off. Of the remainder, 29 percent say they are now better off, while 23 percent feel they are worse off.

negative side is a growing public operception that government services have deteriorated and that there has been an increase in fees paid for a variety of government services during the past five years. Contributing to a positive appraisal of Proposition 13 is the large tax savings to homeowners. On the negative side is a growing public

In the biggest commercial real estate boom in San Francisco history, \$1 billion worth of office buildings have been sold in 15 months, according sold in 15 months, according to a Coldwell Banker survey. sold

space are involved, the equivalent of about 10 Transamerica Pyramids. Nearly 5 million square feet of

At least five times more property has sold since April 1982 than in any similar period in San Francisco history, said Ronald G. Boyer, first vice president and San Francisco resident manager for Colwell Banker Commercial Real Estate Services.

There is no shortage of buyers, Boyer said last week in an inter-

Most of them pay cash, although lower interest rates have improved the overall investment environment.

Twenty bids were received for the International Building at 601 California Street, which Natomas Co. sold to the California State Em-ployees Pension Fund in April for \$54 million.

Boyer attributed the boom to several factors, including a view by real estate people that San Francisco property is highly prized and in a stable market.

San Francisco land is in short supply because of the city's geography. Most sellers don't have to advertise that a building is available, because there are so many prospective buyers. supply

Also, insurance companies generally have been selling buildings to raise cash because their industry has become more competitive.

that rental rates are not increasing as rapidly as they did a few years ago. Another reason, Boyer said, is

This has persuaded some land-lords to take their money out of buildings and invest it elsewere, Boyer said.

"All of a sudden this is happen-ing." Boyer said. "I think it has to do with the interest owners have in money management.

San Francisco leasing rates were increasing 20 percent annually until the economy slowed about a

However, for every owner who believes rental rates won't increase quickly again, there are several prospective buyers who think they will, he said.

Seventeen major properties sold since April 1982 for more than \$800 million. bave

The biggest sale was 44 Mont-gomery Street for \$125 million; the smallest, \$12 million for the Morris Plan Building at 717 Market Street.

When smaller projects are added and buildings for which prices were not disclosed are included as estimates, the figure totals about \$1 billion, Boyer said.

"The simple point is ... I don't know when there were more than two office buildings sold (before) in a given year," he said.

The sales have occurred despite the recession, which has burt the San Francisco office space market, Boyer said.

About 7 percent of the city's prime office space is vacant, compared with less than 1 percent from September 1979 to March 1982.

would have been about the same as in the first quarter, 5.8 percent, if 101 California Street had not been added to the list in the second quarter, Boyer said.

ine land is sacred to the Indians and there was a meeting of Indians of eight countries in Sept. 1979 in Mexico who echoed the thoughts of Henry George "The land is a mother for us. It is our inheritance as a homeland. It includes the water, the trees, the mou mountains, all those things that make it function as the earth. The land is the farmworkers sustenance, as it is the heart of the nation. The land is our life; it is the source and protection of our life. On it we stand, we walk, we rest. When we have land we are happy because we have lood. We feel co committed to its production. We feel co everyone, because its only owner is god." ike cke C $\dot{\omega}$ 75 0 45 ••
