LECTURE BUREAU

June 29 1917

Dear Mr. Blake,

The Lecture Bureau of the Joseph Fels International Commission wants your cooperation in making it a success. Your criticism and suggestions will be helpful.

In issuing new announcements we want to make our list of lecturers as complete as possible. Will you tell us of men and women of special ability in your state with whom we can get in touch? We should also like to have the names of promising young men and women who aspire to the lecture field, and, with a little encouragement, might serve the cause of Single Tax very effectively. Will you please give us your personal estimate of the speakers?

If you will send these names at your earliest convenience we shall appreciate it very much and it will be a real service to our Lecture Bureau.

It is the purpose of the Bureau simply to bring speakers and organizations together, leaving it to the organizations to pay whatever expenses and fees will be required by the speakers. For this reason we suggest that lecturers make their terms as flexible as possible. It seems fair that organizations should pay according to their ability.

In order that we may know about your availability for lecture dates, please fill out and return the enclosed questionnaire.

Cordially yours

Mr. Franklin Blake
Boston
Massachusetts
