"EFFICIENCY THROUGH CO-OPERATION IN PUBLIC AFFAIRS"

403 STEARNS BUILDING

293 BRIDGE STREET

TELEPHONE 6408

SPRINGFIELD, MASS.   July 20, 1916.

Mr. Alexander Mackendrich, Sec'y.,
    Massachusetts Single Tax League,
        Boston, Mass.

Dear Mr. Mackendrich:

In cooperation with other local organizations, we extend to the Massachusetts Single Tax League a cordial invitation to hold its next annual or a special meeting in Springfield sometime during, prior, or after the week of November 20-25, 1916.

For that week we are planning one of the largest and most important gathering of nationally known individuals and organizations ever attempted. The enclosed clipping will give you an idea of the plans as far as they have developed. In addition to those organizations mentioned, several other of similar character which are interested in the work of the Massachusetts Single Tax League have decided to meet here and await only the fixing of dates.

It seems to us that here is an excellent opportunity for the Massachusetts Single Tax League to effectively present its work to the entire country and to particularly interest New England and the delegates who will attend the other conventions. Your members will also be interested in the other programs and may profit from such a joint meeting of organizations as is being arranged.

The groups of hosts being organized for the purpose will insure that your meeting in Springfield will be most successful.

If there is a possibility of your considering a fall meeting here, we shall be pleased to write you further details concerning our plans and will be glad to write to your executive committee.

Cordially yours,

SPRINGFIELD BUREAU OF MUNICIPAL RESEARCH.

Manager.
