THE JOSEPH FELS INTERNATIONAL COMMISSION

122 EAST 37TH STREET

NEW YORK

TEL. VANDERBILT 3767

April 20, 1917.

Alex Mc Kendrick, Esq.  
120 Boylston Street,  
Boston, Mass.

Dear Sir:

Mrs. Fels has handed me your letter of April 17. Six hundred copies of a memorandum sent to Congressmen have been issued from this office, and the supply of copies is exhausted. However, I am enclosing copy of an article containing extracts from resolutions adopted by the United Mine Workers here and modeled along the lines of the memorandum to Congress, and am placing you on the mailing list for additional bulletins that will be issued shortly.

We are cooperating with a strong group in Washington who are actively at work for a federal amendment and action by states in the meantime. Mr. Post presided at a meeting Tuesday night attended by Messrs. Herbert Quick, Colver of the Trade Commission, Ralston, Brownlow, Newman, Siddons, Chas. Ed. Russell, Basil M. Manly, Sid Evans, and others, and another meeting will be held shortly. Thus far there has been no public notice of this Washington activity. Mrs. Fels is going to Washington Sunday to see Mr. Post on this matter. I am going down Sunday night, and after

learning more about the situation there I will  
write you more fully in the hope of establishing  
full cooperation. All are enthusiastic over the  
opportunity to make the land question a live issue  
at this time.

Sincerely yours,

Geo P. West.
