

Narrand, Mass. Aug. 26, 1915.

Dear Mr Mackendrick,

There are several names <sup>of people and</sup> to report. They should receive invitations to join at your early convenience.

Prof. and Mrs. Frank W. Very  
Westwood, Mass

Miss Emma F Baxter, Holden, Mass.

Mrs Louise Murdock Holden, Mass.

Prof Very is an astronomer - formerly of  
Princeton Univ now with a private observatory

The ladies in Holden are farmers, and  
all round live well.

Then no doubt our crowd will be  
head front at the Treasurer's Com. in our Ball Taxes  
this morning.

This morning.  
I think I will not take the trip to town  
to-morrow. If there is any thing of special  
importance call me up - Harvard 44-3 and  
reverse charges. Cordially.

Cardially

Lewis Johnson
