Dear Sir:

I am conducting a course in community civics in the local junior high school. One of our topics for consideration is that of taxation. I am seeking live material for the subjects included in my course. If you have any matter that is intended for free distribution I would be most grateful to you if you would send me some. I will guarantee to use in such a way as to make it produce good results.

Thanking you for anything you may be able to do for me in this line, I am

Yours respectfully,

Walter R. Brooks
