

The Henry George Tract Society

Endwell, N. Y.

Send us what money you can. Nobody gives more value than we do. Send stamps, or a dime or a dollar,--!!

Dyed-in-the-wool Henry George men wax enthusiastic over the tracts we are printing. Tract No. 1, for instance, "Single-Tax in a Nutshell" is one of the best statements ever issued by Mr. George. It is complete and yet concise, breathing the very spirit of the first decade, the very spirit that created that immortal book Progress and Poverty. This tract ought to be distributed over the country by the million as being about the best introduction to the problem of "want in the midst of plenty" ever written. We feel that all of our efforts are justified in our bringing this out-of-print article back into circulation. Any help you can give us is worthwhile if this one tract were our only publication. Think this over.

Yours for a Just division of wealth,

C. LeBARON GOELLER, S.T.
