Why? How can this be

*"No man, no graduate institution, has a right to an educated man in its ranks. Some first-hand theoretical contributions of this thinker."*

This great thinker is Henry George. His *Progress and Poverty* sold millions and was translated into many languages. George showed how the value of land - sites and resources - belongs to all owners while rents belong to the owners. George's remedy is to tax land and labor and require all to pay taxes. BEE updates George's ideas and makes them available to the public.

*"Men like Henry George are rare, unfortunately. One cannot imagine a more beautiful combination of intellectual keenness, artistic form, and fervent love of justice."*

*- Albert Einstein*

From print media to computer-tutor games, examine the problems of taxation, resource hoarding, inflation, unemployment, housing, energy depletion, "exploitation", and war from the perspective of land use, value, and control.

Data, which is continually updated, comes from affiliate organizations. San Diego State University's Center for Public Economics, which BEE helped found, is finishing a computer model of our regional economy that figures in land value and yields predictions so far more accurate than older models. BEE belongs to the Council of Georgist Organizations whose members document land reforms worldwide.

One such study shows Taiwan, while in the Third World, making production more efficient. Another shows Denmark, a First World nation, making distribution more equitable.

*"People do not argue with the teachings of George; they simply do not know it. And it is impossible to do otherwise with his teachings, for he who becomes acquainted with it cannot but agree..." - Leo Tolstoy*
