Dear Stan:

Enclosed is the material that I spoke to you about on the phone. Nothing new to report except that today I received encouragement that House Joint Resolution 31 could very well be the committee's third priority, which would mean that it would get out of committee on March 9. If we should be this fortunate and the House Joint Resolution would be reported out of committee on that date, we would have a wonderful opportunity to be heard on the House Floor and probably in time for consideration before the Senate.

I'll keep you informed as the tale of House Joint Resolution 31 progresses through the 82nd Legislative General Assembly.

Thanks for all your good help.

Sincerely,

Walt
