

*He Applauds Letter Citing
Land Tax As the Answer*

EDITOR OF THE PRESS: A letter headed, "Land Tax Is the Answer," by Benjamin F. Smith, should be emblazoned in the sky and bounced from Tel Star so that all the world could see and understand. In my opinion, Mr. Smith is a man of great intelligence, great love for his fellow man and a true patriot. He has taken a definite stand in showing that our present tax system is all wrong, unscientific and immoral. He also has shown that it is illegal, according to our own Michigan constitution. Those are accusations which are serious and he should be allowed to present his views to a wider audience. May I suggest wider support for this fight to see that the Michigan constitution is honored and obeyed by assessing authorities throughout the state?
