Dear Bob

Thanks for your letter of 16th March. I have been too busy to pursue the subject of Capital Gains Taxation at present, but will follow up in due course.

I am enclosing copies of three resolutions, which a number of us in Australia believe are necessary to strengthen the International Union, explanatory notes are included.

I am also enclosing copies of two papers which I beleive should be featured at the Conference. These could be read by anyone. In my opinion, the subject matter is of vital importance.

Fred Harrison appears to be overwhelmed with submissions which he does not have time to sift through.

There are indications that too much "old hat" "hobby horse" material will be featured, which will not help to advance the Movement in terms of its effectiveness. Fred writes that he is aware of this.

Would you kindly study the material, and if you can get sufficient support from our colleagues in the U.S., write to Fred as you see fit.

With kind regards

Graham Hart
