

(Repeated from our Greeting of 1922)

"Ev'n now we hear with inward strife
A motion toiling in the gloom—
The Spirit of the years to come
Yearning to mix himself with Life." —Tennyson

"Nay, but these would feel and follow Truth if only you and you,
Rivals of realm-ruining party, when you speak were wholly true"
—Tennyson

"Truth does not wear the dress of a party." —Unknown.

"The Law of Progress—

Both sides must have a hearing and the ultimate issue will be good
. . . we may be absolutely convinced that we are right, and that our
opponents are immeasurably wrong. But let them have their say. Truth
will prevail, and never more certainly than by the slaughter of oppo-
site extremes."
—Dr. C. W. Saleeby.

"Truth is that which holds the balance between the arguments."
—Unknown.

"And the Truth shall make you free." —The Bible.

"Human freedom consists in perfect adjustment of human interests and
human activities and human energies to one another."

—President Woodrow Wilson of the U.S.A.

"Truth is the science of Power . . . Power in its highest expression is
the science of organizing the individual mind in the service of the
universal."
—Benjamin Kidd.

"So let the change which comes be free
To ingroove itself with that which flies,
And work, a joint of state, that plies
Its office, moved with sympathy.

Not clinging to some ancient saw;
Not mastered by some modern term;
Not swift nor slow to change, but firm;
And in its season bring the law:

That from Discussion's lip may fall
With Life, that, working strongly, binds—
Set in all lights by many minds,
To close the interests of all." —Tennyson.

P.T.O.

5004

And Now, in 1956 . . .

The line above, "To ingroove itself with that which flies" is curiously intriguing, and seems to fit in with another verse from the same poem, "Love Thou Thy Land"—

"The warders of the growing hour,
But vague in vapour, hard to mark;
And round them sea and air are dark
With great contrivances of Power."

Since this Greeting was first issued world events have shown that there is ever-increasing need for the Peoples of our Planet, Earth, to work for the formation, in as many countries as possible, of Governments based on principles of free discussion, free decision and free co-operation, so that these can indeed plie their office moved with sympathy, and reconcile the interests of all.

"Principles of human association must be made known, and mutual service be demonstrated, as the common primary purpose of mankind . . . The Great Love must be acknowledged as the supreme power of the Universe, and universal public opinion must become the governing power on earth."
—Bert Taylor, Founder of General Welfare Movement.

THE UNISM PLAN offers its three principles and technique of human co-operation so that Men of all Religions and Men of all Schools of Social Reform can work together, through their political and economic institutions, for The Brotherhood of Man—

THE RELIGIONIST MUST STIR THE HEART.
THE REFORMIST MUST GUIDE THE BRAIN.

If there is to be permanent co-operation and peace between the nations of EAST and WEST, then there must first be willing agreement and co-operation between all citizens, and their parties of LEFT and RIGHT, *within* the various nations. All-Parties Home Governments are needed quickly as the basis for an All-Nations Government of the World.

"Co-operative Government of All Parties will provide machinery for a common movement. It is the first deliberate common step towards Co-operative Government of the World: towards that ideal of Tennyson, when the whole Planet shall be 'lapt in universal law'—the Law of the Universe, based on Love, Justice, Generosity and Mercy."

—"Blasted or Free?"—text-book of The Unism Plan for World Unity.

Man must take up his work in the Self-governing Workshop of the World, subject only to the Will of the Divine Autocrat—

"Foster his reason—not his apathy.

Teach him to want to learn.

Renew his gear.

Give him the finest tools of government,
And he will learn their use—and learning, find
How to extend their use
To one Grand Federation of the World,
To Peace instead of Chaos."

—From "Orion Valahir" by Mrs. Colin Unwin.

With Greetings on behalf of wife and self

From Colin Unwin, Editor of THE UNISM PLAN
