The Georgist Journal

Dear Editor,

I take the opportunity to explain why we experience world crisis, recessions, and unpayable debt, the latter goes mainly for the countries of the third world.

My opinion is that L.V.T. has a better chance now than ever before considering the development.

./.  
I enclose a copy of page 82 from "Constructive Taxation for Free Enterprise", presumeably written in 1956, by Judge John R. Fuchs, 22nd Juridicial District of Texas, 1 New Braunsfels, Texas, issued by Exposition Press Inc., to whom I have written and asked for further copies of the book, but in vain.

Maybe you can find it in a library or in a second-hand bookseller's shop. If you are successful, I would be most obliged if I could have a copy of this famous book.

I got the book as a present from J. Rupert Mason, San Francisco, in 1959.

I would be most obliged if you would correct my rather poor English so that it can be easily understood by British, American as well as Australian readers.

Sincerely yours,

  
Knud Tholstrup
