

## HENRY GEORGE INSTITUTE

5 East 44th Street  
New York, N.Y. 10017

Dec. 13, 1983

Dear Bill:

Look again at my letter of Oct. 26. I asked a few reasonable questions that would occur to anybody; my "ire" wasn't raised - but it appears that you're in your letter of Dec. 5.

Also look over past issues of the Georgist Journal and you will find that you received adequate attention with the Media Foundation, the Newcomb Incentive Award, and before that we promoted your "Conspiracy" booklet.

Lots of people are working at our cause. We are getting some press attention. Roger Starr of the New York Times and Gurney Breckenfeld of Fortune came out of the Perry Prentice influence. (I got Perry into the movement but I'm not beating the drums about it.)

I didn't realize you had such an extensive operation with Spectrum Video-films. From your notice it looked as though you had formed it primarily to make a Georgist film. And I can't help but wonder about scattered efforts to do this when it is a big commitment and would be better if the various Georgist agencies worked together on it.

Sincerely,

  
Robert Clancy

P.S. Can you send me a copy of your prospectus on the Georgist film?

P.P.S. Don't forget that Steve Cord - and many other activists - came out of the Georgist educational effort.
