

HENRY GEORGE INSTITUTE

121 East 30th Street
New York, N.Y. 10016

July 21, 1989

Dear Colin:

I don't know whether this will catch you in time, or where you are at this moment, but you use your Florida address on your renewal form, so that's what I'm using.

First, thank you for your remittance of \$20 of which \$10 renews your HGI membership and \$10 is a contribution, which we appreciate. New card enclosed.

I note with interest your impressive dossier of material and I presume we will hear further from you at the Conference.

I'm sorry you think you and your colleagues have been neglected, but consider the following points:

When a Georgist writes a letter to the press, even if it's a small paper, it's news that it gets printed. I get lots of letters from friends who write to newspapers but if they don't get printed, what's new? Same with letters to officials. Many such are written, I am interested in the reply received. Noah Alper used to send thousands of leaflets and letters to college economists. I'd be interested in the one economist who responded.

recently

Second, you have not submitted anything/specially for the Georgist Journal. You did some time ago and I printed it. I don't mean a closely printed essay of dozens of pages. Please! Something of the right scale.

Also: I would indeed be interested in your 2,000 letter writers, but I've never heard of them. I can't print news I don't hear about.

So let's hear from you once in a while.

Sincerely,

Robert Clancy
