2 April 1992

Dear Bob Clancy:

I am thrilled with the article about Roxbury - Mandela!

My husband, Philip Clapp, was born in Roxbury and graduated from Roxbury Latin School. He would have been thrilled about the possibility of Roxbury becoming MANDELA, and so should all Georgists be. Philip was Director of the School of Music at the University of Iowa (Iowa City) 1919-1954. I was a graduate student at the University (20 years younger than Philip) That is why, at 83, I'm still around. There were two especially good black students who earned the Ph.D in music.

If you have an extra copy of Jan. Feb 1992 Land and Liberty, please have someone take it to McNeil Lehrer Newshour 356 W. 58th St.

With best wishes, Milly

The date on this check shows how long I've been intending to ask if you can arrange a subscription for me to Land and Liberty. While I'm at it, you may just extend my subscriptions to the Journal and the Newsletter for another year each. Include all 3 in the check amount.

This is not a very clear copy of Henry George, Ecologist. I sent the original and a clearer carbon to friends to give me ideas on how to improve it. The use I envision for it will not have my name attached. I want the heads of Georgist organizations to work it over and figure out the best way to approach environmental organizations. Charlie Purvis's phone call yesterday from Alaska made me decide not to wait till I get the suggestions for improvements. (I will send them to you when I receive them.) The economy and the environment are both in a perfectly dreadful pickle. They have much to gain by teaming up, and I hope ^{you} they can unitedly be ready to pounce on the new Administration.

As suggested in the Journal, I sent to John Burger of the Minnesota House of Representatives. His paper is so great, I've sent for several more.

Best from Willy Clapp
