Dear Bob:

Finally got to give my statement before Governor Bruce Babbitt's Task Force on Assessment Practices. As you can see by the news clipping, I got scant notice - and even that was good compared to the aft paper which did not report it at all.

However, I have impressed the Chairman who is also the State Director Arizona Dept of Revenue and another member who is Chmn of the State Board of Tax Appeals. Both are influential and will carry lots more clout than I do.

Presently our property tax is in a chaotic state after all the tinkering that has been pulled over the years and they are looking for a way out of the mess .

I trust the Holland Conference was a success.

Regards,

1928
