

## U.F.A. Expresses Confidence In Hon. Brownlee

### Will Ask That Noted Single Tax Speaker Appear at Annual Convention

(From Our Own Correspondent.)

MILK RIVER, Oct. 18.—The regular meeting of the local U.F.A. was held in the Elks Hall last Saturday with the president, Nels Petersen, in the chair. A resolution was passed reaffirming the confidence of this local in their leader, the Hon. John E. Brownlee.

A resolution was also passed asking the central executive of the U.F.A. to make an effort to have the Hon. Abe Waldacur, city attorney for Memphis, Tenn., speak on the land question at the annual U.F.A. convention which will be held next January. Mr. Waldacur is one of the best authorities on this important question.

An invitation was also extended to E. J. Garland, federal member for Bow River, to visit Milk River and expound the C.C.F. theory.

Fred Pease, president of the Milk River Single Tax Club, gave a short talk on his recent trip to the Single Tax convention held in Chicago and voiced the sentiments of the rest of the delegates when he said the convention was one of inspiration and also a wonderful condition, when over 150 delegates could agree on one view point, that is: The removal of all forms of taxation to run the various governments, and to raise the money for this purpose from the rental of natural resources only. A full report of this convention will be given at the next board of trade meeting, November 6. Fred Pease, as president of the Milk River Single Taxers, and heading a delegation from the farthest point in Canada to the convention, was presented with a beautiful silver shield, upon which his name was engraved.
