

## CHICAGO PLANNING COMMISSION: "Make no small plans."

"If the purpose is to raise the permanent condition of a people small means do not merely produce small effects; they produce no effect at all." - John Stuart Mill. Simultaneously: Increase all ground rent assessments, progressively, to equal 100% in five years. Reduce improvement taxes correspondingly. End ALL exemptions on land value assessments, ALL tax exemptions on business, foundations, contributions of ANY kind, ALL depletion allowances, investment tax credits, accelerated depreciation, and any other undue favoritism. Distribute enormous government food storage, to feed hundreds of millions of hungry peoples, here and throughout the world, saving it from spoilage, and saving \$600,000 a week in storage cost; not to be resumed by government, once it is gone. Farmers to organize cooperatives, estimate production needs, set their own goals, store their own produce, if they wish; supervise each other; lend each other money, without interest, as in former Raffeisen cooperatives in Germany; with no government interference in sales abroad. No monopoly - low flat tax rate.

No government interference with any imports, except for tariffs, to equal any subsidies on goods; and prohibition of food imports sprayed with pesticides banned here. Export of these pesticides to be banned. End ALL taxes on improvements and other savings - ENDLESS MULTIPLE TAXES - as soon as matching funds are available from sources now tax exempt. End ALL taxes on production as soon as possible, from savings on the military, the bureaucracy in general, with reduced need for regulatory, charitable, repression and sickness care, resulting from surplus jobs, better health, less violence and dissipation, a more peaceful world. Convert ALL detention into monetary restitution, with representative review of the crimes of prisoners, the circumstances, crimes of police, judges, jail and prison administration and guards. Detention under as normal conditions as possible, only for the dangerously disturbed. Truth tests accepted as evidence of innocence, or of abuse; the latter requiring government restitution, unless paid by guilty individuals, determined by usual means.

Introduce compulsory representative mediation of all our domestic and international differences, using publicity and individual boycotts and ostracism for enforcement; with police and the military for defense of persons and property only. Urge full ground rent assessment, mediation and monetary restitution for crime, worldwide, and offer financial and defensive military support only for those enacting these measures. Cancel all excessive foreign debt. Government provides COMPLETE free health, disability and old age services, except for some payment by the rich, until surplus jobs, better education, wages equal to one's production, the end of monopoly medical care, and vastly lower bureaucracy costs, waste and taxes enable the public to handle their own expenses, through cooperatives. Toxic wastes, solid or otherwise, not to be produced until their safe conversion is provided for. All types of arms immediately to be frozen. Nuclear power to be converted to any type of replacement - clean power as soon as possible.

Private agencies to provide free advice on the efficiency, ethics and safety of any business or residence problem. Recycling of ALL resources monitored, and ensured with inducements and penalties. Recreational resources to have priority over production; the latter entirely unnecessary for jobs, largely going to waste and destruction. All sensate creatures to be given considerate care, their use to be approved by humane societies' consensus. Not to be used for food; unneeded, cruel raising, slaughter; deteriorated, poisoned; cause great pollution, use excess space; nor for zoos or pets, under unnatural conditions. Check all with truth tests.

SOCIAL STATICS - Herbert Spencer: "By 'true in principle,' he means in harmony with the conduct decreed for us .... when he proposes to disobey, he does so in the hope of improving on this guidance! ...To the Creator's silent command, 'Do this,' he replies that, all things considered, he thinks he can do better! This is ... the true Atheism:" (The economic means is ethical, but the political means - legal robbery - is practical. Peace is ethical, but war is practical. Mediation is ethical, but expensive, biased law and sadistic prisons are practical.) "Every man ... is free to use the earth for the satisfaction of his wants, provided he infringes not the equal freedom of any other. ...What would anyone think of being required to kiss the Pope's toe because his great-great-great grandfather promised that he should do so?" (Cancel national debt)

Sen. Metzenbaum letter to 7-8-News & 8-15: £ 2.95 billion in  
tax subsidies. Corporations receive more than they pay - 13 on Share  
Comm paid no tax (Council, balance budget, lower interest rates  
other taxes. Filibuster, to oppose monopoly-bought votes, and get full  
ground rent assessments. Colonialism and neocolonialism of West  
second only to Nazi viciousness.)
